## The Leadership Summit Experience

This conference is organically structured and features coaching from education leaders, discussion of your questions, and a focus on your preconference assessment. This summit is unique because it is two full days focused on solving your specific challenges.

### All three coaches are INVOLVED! After each presentation there are:

- Intra-District Dialogues – Discussion and coaching with your leadership team on barriers, opportunities, best practices, and application in your district.
- Inter-District Dialogues – Discussion and coaching to share best practices, hear examples of application, and generate ideas for overcoming obstacles in your district.
- Group Dialogues – Large group discussions where participants will share lessons learned and next steps for implementation.

The balance among our leaders' experiences, the ability to work with other districts, and the targeted time within our district was invaluable.

Terry Holliday's presentation was detailed, specific, and could be immediately applied to my home district.
